Journal of Supercritical Fluids 18 (2000) 257–259

THE JOURNAL OF Supercritical Fluids

www.elsevier.nl/locate/supflu

Subject Index

Adsorption
Mordant dyeing of wool by supercritical processing 247
Antisolvent
Solubility of hydroxybenzoic acid isomers in ethyl acetate expanded with CO_2 111
Apparatus
Critical points and phase behavior of toluene-CO_2 and toluene-H_2-CO_2 mixture in CO_2-rich region 185
Aroma extracts
Supercritical CO_2 extraction of *Thymus zygis* L. subsp. *sylvestris* aroma 25

Beam deflection
Large mirage effect in supercritical CO_2 193
B2EHPA
Extraction of lanthanide ions from aqueous solution by modified supercritical CO_2: tri-*n*-butylphosphate + CO_2 and bis-2-ethylhexyl phosphoric acid + CO_2 157
Binary mixture
Vapor–liquid equilibria at elevated pressures of binary mixtures of carbon dioxide with methyl salicylate, eugenol, and diethyl phthalate 87
Biopolymers
Supercritical antisolvent micronization of some biopolymers 239

Carbon dioxide
Kinetics study on supercritical fluid extraction of zinc(II) ion from aqueous solutions 201
Large mirage effect in supercritical CO_2 193
Phase behavior of siloxane-based amphiphiles in supercritical carbon dioxide 101
Physical properties of low rank coals dried with supercritical carbon dioxide 73
Selectivity of 1,3-dipolar cycloaddition of methyl propiolate to 3-phenylsydnone in near- or supercritical carbon dioxide 131
Supercritical CO_2 extraction of essential oil from orange peel; effect of the height of the bed 227
Carotene
Modeling the extraction of carotene and lipids from pressed palm oil (*Elaes guineensis*) fibers using supercritical CO_2 35
Celery seed
Supercritical fluid extraction of celery seed oil 213
Chelation
Kinetics study on supercritical fluid extraction of zinc(II) ion from aqueous solutions 201
Mordant dyeing of wool by supercritical processing 247
CO_2
Critical points and phase behavior of toluene-CO_2 and toluene-H_2-CO_2 mixture in CO_2-rich region 185
Solubility of hydroxybenzoic acid isomers in ethyl acetate expanded with CO_2 111
Coal
Physical properties of low rank coals dried with supercritical carbon dioxide 73
Counterdiffusion model
Numerical modeling of mass transfer in the supercritical antisolvent process: miscible conditions 11
Critical points
Critical points and phase behavior of toluene-CO_2 and toluene-H_2-CO_2 mixture in CO_2-rich region 185

Data
Vapor–liquid equilibria at elevated pressures of binary mixtures of carbon dioxide with methyl salicylate, eugenol, and diethyl phthalate 87
Dense CO_2
Diffusion coefficients of model contaminants in dense CO_2 141
Dense CO_2 deterpenation
Semi-batch deterpenation of origanum oil by dense carbon dioxide 49
Diffusion coefficient
Diffusion coefficients of model contaminants in dense CO_2 141
1,3-Dipolar cycloaddition
Selectivity of 1,3-dipolar cycloaddition of methyl propiolate to 3-phenylsydnone in near- or supercritical carbon dioxide 131
Droplet swelling
Numerical modeling of mass transfer in the supercritical antisolvent process: miscible conditions 11

Effect of bed height
Supercritical CO_2 extraction of essential oil from orange peel; effect of the height of the bed 227
Elaes guineensis
Modeling the extraction of carotene and lipids from pressed palm oil (*Elaes guineensis*) fibers using supercritical CO_2 35
Essential oils
Supercritical fluid extraction of celery seed oil 213
Esterification
Esterification of oleic acid and ethanol in plug flow (packed bed) reactor under supercritical conditions: Investigation of kinetics 121
Extraction
Modeling the extraction of carotene and lipids from pressed palm oil (*Elaes guineensis*) fibers using supercritical CO_2 35

Fractionation column
Semi-batch deterpenation of origanum oil by dense carbon dioxide 49

H_2
Critical points and phase behavior of toluene-CO_2 and toluene-H_2-CO_2 mixture in CO_2-rich region 185
Heterogeneous catalysts
Rhodium supported on activated carbon as a heterogeneous catalyst for hydroformylation of propylene in supercritical carbon dioxide 1
Hydroformylation
Rhodium supported on activated carbon as a heterogeneous catalyst for hydroformylation of propylene in supercritical carbon dioxide 1

0896-8446/00/$ - see front matter © 2000 Elsevier Science B.V. All rights reserved.
PII: S0896-8446(00)00086-3

Hydroxybenzoic acid
Solubility of hydroxybenzoic acid isomers in ethyl acetate expanded with CO_2 111

Immobilised lipase
Esterification of oleic acid and ethanol in plug flow (packed bed) reactor under supercritical conditions: Investigation of kinetics 121

Kinetics
Esterification of oleic acid and ethanol in plug flow (packed bed) reactor under supercritical conditions: Investigation of kinetics 121

Lanthanide ions
Extraction of lanthanide ions from aqueous solution by modified supercritical CO_2: tri-*n*-butylphosphate + CO_2 and bis-2-ethylhexyl phosphoric acid + CO_2 157
Lignite
Physical properties of low rank coals dried with supercritical carbon dioxide 73

Mass transfer
Modeling the extraction of carotene and lipids from pressed palm oil (*Elaes guineensis*) fibers using supercritical CO_2 35
Mass-transfer coefficient
Kinetics study on supercritical fluid extraction of zinc(II) ion from aqueous solutions 201
Mathematical model
Supercritical fluid extraction of celery seed oil 213
Mirage
Large mirage effect in supercritical CO_2 193
Model contaminants
Diffusion coefficients of model contaminants in dense CO_2 141
Modeling
Modeling the extraction of carotene and lipids from pressed palm oil (*Elaes guineensis*) fibers using supercritical CO_2 35
Supercritical CO_2 extraction of essential oil from orange peel; effect of the height of the bed 227
Monoterpene
Semi-batch deterpenation of origanum oil by dense carbon dioxide 49
Mordant dyeing
Mordant dyeing of wool by supercritical processing 247

Nano and micro-particles
Supercritical antisolvent micronization of some biopolymers 239
Natural fat fractionation
Application of the supercritical CO_2 extraction technology on the recovery of natural fat from the sheepskin degreasing process 65
Non-ionic surfactant
Application of the supercritical CO_2 extraction technology on the recovery of natural fat from the sheepskin degreasing process 65
Nucleation rate
Influence of thermodynamic behaviour and solute properties on homogeneous nucleation in supercritical solutions 169

Orange essential oil
Supercritical CO_2 extraction of essential oil from orange peel; effect of the height of the bed 227
Origanum oil
Semi-batch deterpenation of origanum oil by dense carbon dioxide 49

Particle formation
Numerical modeling of mass transfer in the supercritical antisolvent process: miscible conditions 11
Phase behaviour
Phase behavior of siloxane-based amphiphiles in supercritical carbon dioxide 101
Phase transition pressure
Extraction of lanthanide ions from aqueous solution by modified supercritical CO_2: tri-*n*-butylphosphate + CO_2 and bis-2-ethylhexyl phosphoric acid + CO_2 157
Plug flow
Esterification of oleic acid and ethanol in plug flow (packed bed) reactor under supercritical conditions: Investigation of kinetics 121
Process parameters
Supercritical fluid extraction of celery seed oil 213
Pyrazole
Selectivity of 1,3-dipolar cycloaddition of methyl propiolate to 3-phenylsydnone in near- or supercritical carbon dioxide 131

Recovery
Application of the supercritical CO_2 extraction technology on the recovery of natural fat from the sheepskin degreasing process 65
RESS-modelling
Influence of thermodynamic behaviour and solute properties on homogeneous nucleation in supercritical solutions 169
Retrograde behaviour
Influence of thermodynamic behaviour and solute properties on homogeneous nucleation in supercritical solutions 169
Rhodium
Rhodium supported on activated carbon as a heterogeneous catalyst for hydroformylation of propylene in supercritical carbon dioxide 1
RSM
Supercritical CO_2 extraction of *Thymus zygis* L. subsp. *sylvestris* aroma 25

Selectivity
Selectivity of 1,3-dipolar cycloaddition of methyl propiolate to 3-phenylsydnone in near- or supercritical carbon dioxide 131
Semi-batch
Semi-batch deterpenation of origanum oil by dense carbon dioxide 49
Silicone
Phase behavior of siloxane-based amphiphiles in supercritical carbon dioxide 101
Solubility
Influence of thermodynamic behaviour and solute properties on homogeneous nucleation in supercritical solutions 169
Solubility of hydroxybenzoic acid isomers in ethyl acetate expanded with CO_2 111
Steam distillation
Supercritical CO_2 extraction of *Thymus zygis* L. subsp. *sylvestris* aroma 25
Stirred tank
Kinetics study on supercritical fluid extraction of zinc(II) ion from aqueous solutions 201
Sub-bituminous coal
Physical properties of low rank coals dried with supercritical carbon dioxide 73
Supercritical
Esterification of oleic acid and ethanol in plug flow (packed bed) reactor under supercritical conditions: Investigation of kinetics 121
Large mirage effect in supercritical CO_2 193

Supercritical antisolvent
Numerical modeling of mass transfer in the supercritical antisolvent process: miscible conditions 11
Supercritical antisolvent micronization
Supercritical antisolvent micronization of some biopolymers 239
Supercritical carbon dioxide
Rhodium supported on activated carbon as a heterogeneous catalyst for hydroformylation of propylene in supercritical carbon dioxide 1
Supercritical CO_2
Diffusion coefficients of model contaminants in dense CO_2 141
Supercritical CO_2 extraction of *Thymus zygis* L. subsp. *sylvestris* aroma 25
Supercritical CO_2 extraction
Application of the supercritical CO_2 extraction technology on the recovery of natural fat from the sheepskin degreasing process 65
Extraction of lanthanide ions from aqueous solution by modified supercritical CO_2: tri-*n*-butylphosphate + CO_2 and bis-2-ethylhexyl phosphoric acid + CO_2 157
Supercritical fluid drying
Physical properties of low rank coals dried with supercritical carbon dioxide 73
Supercritical fluid extraction
Kinetics study on supercritical fluid extraction of zinc(II) ion from aqueous solutions 201
Supercritical CO_2 extraction of essential oil from orange peel; effect of the height of the bed 227
Supercritical fluid extraction of celery seed oil 213
Supercritical fluids
Modeling the extraction of carotene and lipids from pressed palm oil (*Elaes guineensis*) fibers using supercritical CO_2 35
Mordant dyeing of wool by supercritical processing 247
Supersaturation
Influence of thermodynamic behaviour and solute properties on homogeneous nucleation in supercritical solutions 169
Sydnone
Selectivity of 1,3-dipolar cycloaddition of methyl propiolate to 3-phenylsydnone in near- or supercritical carbon dioxide 131

TBP
Extraction of lanthanide ions from aqueous solution by modified supercritical CO_2: tri-*n*-butylphosphate + CO_2 and bis-2-ethylhexyl phosphoric acid + CO_2 157
Thyme
Supercritical CO_2 extraction of *Thymus zygis* L. subsp. *sylvestris* aroma 25
Toluene
Critical points and phase behavior of toluene-CO_2 and toluene-H_2-CO_2 mixture in CO_2-rich region 185
Two-way mass transfer
Numerical modeling of mass transfer in the supercritical antisolvent process: miscible conditions 11

Vapor-liquid equilibria
Critical points and phase behavior of toluene-CO_2 and toluene-H_2-CO_2 mixture in CO_2-rich region 185

Vapor–liquid equilibria
Vapor–liquid equilibria at elevated pressures of binary mixtures of carbon dioxide with methyl salicylate, eugenol, and diethyl phthalate 87
Wool dyeing
Mordant dyeing of wool by supercritical processing 247

Zinc ion
Kinetics study on supercritical fluid extraction of zinc(II) ion from aqueous solutions 201
